WHERE ARE THE COLLECTION(S)?
WHERE ARE THE COLLECTION(S)?

Locations

Here are the locations and the terms of use of the collections in the "Location" field of the Library Catalog:

**ML Book Collection** indicates that the resource is located in the general collection on the 2nd and the 3rd floors of the main library building. Books in this collection are for long loan. Please watch the "METU Library CANA Presentation Video" on YouTube for easier access to the books in general collection.

**ML Rare Collection** indicates that the resource is located on the 3rd floor of the Block B, in the Rare Collection section. These resources are not for loan but some parts can be photocopied.

**ML Journals** indicates that the resource is located in the periodicals collection on the 1st floor. The periodicals located in the Current Periodicals Hall are not for loan but articles can be photocopied. The periodicals in the Bound Periodicals Hall and the Journal Stacks are only loaned for 7 days to master's and PhD students and academic staff. Please fill out the "Journal Stacks Request Form" under "Forms" on the library's web site for the periodicals published in 1989 and before.

**Reference Collection (Entrance)** indicates that the resource is located in the Reference Hall on the ground floor. These resources are not for loan but some photocopies can be made. Please watch the "METU Library CANA Presentation Video" on YouTube for easier access to the books in the reference collection.

**METU Theses** indicates that the resource is located in the Reference Hall on the ground floor. Theses are not for loan but some parts can be photocopied, or the electronic version of a thesis can be accessed if the writer permits.

**Circulation Desk (Entrance)** indicates that the resource is located at the Long Loan Desk at the entrance. These books can be borrowed for 3 days at a time.

**ML Reserve Collection** indicates that the resource is located in the Reserve section on the ground floor. These resources are for short loan only.

**Book Stacks Collection** indicates that the resource is located in the Book Stacks. These books can be used by filling out the "Book Stacks Request Form" under "Forms" on the Library's Web Site, and are for long loan.

**ML Project** indicates that the resource is being used in a project being conducted at the University. With this note in the "Location" area, the due date appears in the "Status" area. These books are included in the general collection when they are returned to the Library, and then the "ML Book Collection" note appears in the "Location" area.

**METU Legal Counselor** indicates that the resource is located in the Legal Counselor's Office of the University and the due date appears in the "Status" area of the catalog record. These books are not for loan. They are included in the general collection when they are returned to the Library, and then the "ML Book Collection" note appears in the "Location" area. After that they can be borrowed.

**Muhan Soysal FEAS New Building** indicates that the resource is located in the Muhan Soysal Library, in the new building of the Faculty of Economic and Administrative Sciences. Some books in this collection are for long loan and others for short loan. Please call (+90.312)2103092 for further information.

**EDC FEAS New Building** indicates that the resource is located in the European Documentation Center, in the new building of the Faculty of Economic and Administrative Sciences. These resources are not for loan but some parts can be photocopied. Please visit the Web site of EDC or call (+90.312)2103092 for further information.

**Oğuz-Kalbıyık Tansel Kütüphanesi (Department of Turkish Language)** indicates that the resource is located in the Oğuz-Kalbıyık Tansel Library in the Department of the Turkish Language. These resources are not for loan.

**Marine Science Ins. (Erdemli/Mersin)** indicates that the resource is located in the Marine Science Institute in Mersin.

**NCC** indicates that the resource is located in the North Cyprus Campus Library in Gazievır. Please visit the web site of the NCC Library or call (+90.392)6012881 / (+90.392)6012882 for further information.

PLAYING NICE IN THE ORGANIZATIONAL SANDBOX: EXPLORING THE ROLE OF SOCIAL IDENTITY THEORY AS AN EXPLANATORY CONSTRUCT IN UNDERSTANDING NEGATIVE ORGANIZATIONAL BEHAVIOR

Kelli L. Fellows, Pfeiffer University
Lauren Presher, Pfeiffer University

ABSTRACT

A plethora of terms exist designed to capture a spectrum of negative interpersonal and small group communicative behavior within organizations. From organizational bullying to mobbing to sexual harassment, each linguistic representation provides a symbolic framework to group various aggressive phenomena enacted by organizational actors. Collectively, the occurrences may impact a variety of organizational outcomes including employee retention, satisfaction, morale, productivity, and mental and physical health. The existing literature reflects numerous theoretical and applied approaches which address the phenomena in the quest to identify antecedents, prescriptive measures to minimize occurrences and perpetuation, and quantitative measures to develop to gauge event existence and impact. As a complement and extension to this body of research, the current study explores the explanatory value of social identity theory as a conceptual framework of understanding various intrapersonal, interpersonal, and small group communicative processes within organizational contexts. Specific foci include (1) occurrence, (2) interpretation, and (3) management of organizational actors’ negative behavior against other organizational members. Further, the current study posits that social identity theory’s potential holistic contribution to inform organizational actor’s (1) sensibilities of negative events, (2) naming (of said events), (3) disclosure, and (4) rights and/or available course(s) of action governed by existing laws, organizational policies and procedures, and/or

In the image, a screenshot of the Web of Science database is shown. The user is conducting a Basic Search for the terms "problem behavior" and "temperament" using the Core Collection. The search parameters include a time span from 1945 to 2014.

The search is set up as follows:
- Basic Search
- "problem behavior" and "temperament" on the search bar
- Time Span: From 1945 to 2014

Additional options are available under More Settings, including Customer Feedback & Support, Additional Resources, What's New in Web of Science, and Customize your Experience.
REMOTE ACCESS TO DATABASES
REMOTE ACCESS TO DATABASES (CONTINUES)

To access electronic resources provided by ODTÜ Library off campus, you can use different two methods.

1. With ODTÜ Library Access Method : ODTÜ faculty members, administrative staff and students need to login the "Off Campus Access Login" when they click on any kind of resources. Users will be asked to fill "Off Campus Access Login" when they access to databases or when they wanted to download full article, reached by using search engine on library main page. Typed data information will be valid for other resources while the browser remains open.

   For any questions and concerns, please send an e-mail to lib-hotline@metu.edu.tr

   Note: Users without a Library account must apply with their ODTÜ ID card to Circulation Desk to create an account behalf on themselves.

2. With BIDI VPN Service : To use VPN service you can do settings related to your device.

   For any questions and concerns, please send an e-mail to hotline@metu.edu.tr

   Warning: For users using VPN, the connection speed per user is defined as 1 Mbps. For this reason, in the cases that VPN connection is not necessary it is recommended that you disconnect from your VPN connection.
For the security of the network and preventing the unwanted access to the network, an authentication system that runs on RADIUS had been implemented, and users have to register their MAC addresses at [http://mderegister.metu.edu.tr](http://mderegister.metu.edu.tr).

There is currently two SSID broadcasts on every AP. First SSID is eg2K - which is short form of "network group 2006" - a broadcast without any encryption.

There is also a second SSID broadcast (namely edunet) that runs with 802.1x and that's a part of the edunet, which stands for Education Roaming. edunet runs on a RADIUS-based infrastructure that uses 802.1X security technology to allow for inter-institutional roaming. For more information about this network and the details of how to set it up, please go to [edunet page](http://edunet.metu.edu.tr). Currently, there are over 400 access points running on a central control unit and these AP support 802.11 a/b/g/n standard.

Users without a wireless network interface card can borrow cards from the Library and Cultural and Convention Center with their ID cards. Unfortunately this service is available to METU students and personnel only. These cards are introduced to the authentication system beforehand and needn’t to be registered.

People visiting METU can use the wireless service at Cultural and Convention Centre and guest houses by registering their MAC addresses. This is going to be a temporary registration and will be deleted after a predetermined time.

You can read an article on wireless networks in [CISN](http://cisn.metu.edu.tr) prepared by METU CC Network Group at [this address](http://cisn.metu.edu.tr).

Above the content provided at [METU-CC Web site](http://cisn.metu.edu.tr).

Quick Guides about how to find MAC address and registering Wireless Network:

- [How to find MAC Address?](http://cisn.metu.edu.tr)
- [Steps to Connect Wireless Network](http://cisn.metu.edu.tr)
MOBILE LIBRARY
With smart phones and tablet computers you can use the Mobile Library Application and you can:

- View your library account and renew your books,
- Search the library catalog and reserve books,
- Get information about the locations of collections in the Library,
- Search collections through the METUnique Search,
- View library hours,
- View free PCs in the Library,
- Be aware of new services, new database subscriptions, and trials.

You can access the Mobile Library by clicking here or by scanning the QR code below:

Users using Android operating system can download the application by clicking here, and users using iOS operating system can...
